Winter Semester-2004

To Whom It May Concern,

Amanda Thompson has had a very successful student teaching experience at Bangor West Elementary School in the fourth grade. At this level she was responsible for all academic subjects.

During this time Amanda demonstrated all the characteristics of a mature, qualified classroom teacher. She is very organized, reliable, flexible and has a good sense of humor. Her enthusiasm for teaching is very evident. She created a comfortable and caring environment for learning.

Amanda related well to students, parents and other staff members. She participated in field trips, school related meetings and in the district's annual music program as well as in parent teacher conferences.

Amanda has effective communication skills. She maintained a well managed classroom. Her lesson plans were clear and precise and were adapted to meet the needs of individual students. She utilized many different teaching techniques which included visuals and hands-on activities.

Amanda conducted herself in a professional and ethical manner at all times. She will be a wonderful addition to any staff lucky enough to have her.

Sincerely,

Susan Wetters

Supervisor, Clinical Experiences
